

ACCIDENT / INCIDENT CLASSIFICATION AND REPORTING

Appendix 1 – Company HSE incident Classification

Use the tables in this section to make an assessment of the actual outcome of the incident. If multiple applicable consequences are listed, the event will be categorised based upon the most serious consequence. Following this, make an assessment of the potential outcome by determining the most serious easily foreseeable consequence.

Note: Consequences may involve employees, contractors or members of the public/visitors.

Actual Consequence / Reasonably Foreseeable Consequence	Actual	Potential
<ul style="list-style-type: none"> ④ Fatality ④ Terminal ill health, eg, occupational cancer, asbestosis etc. ④ Environmental Incident Category 5 ④ Service Damage Category 5 ④ Rail Sector Incident (Major) 	Category 5A	Category 5P
<ul style="list-style-type: none"> ④ Permanent Disability, loss of sight, disfigurement etc ④ RIDDOR Specified Injury / Dangerous Occurrence ④ Reportable diseases under RIDDOR not falling into category 5 ④ Environmental Incident Category 4 ④ Service Damage Category 4 	Category 4A	Category 4P
<ul style="list-style-type: none"> ④ RIDDOR Lost Time Injury (over 7 days) ④ Work related health issue requiring time off work ④ Environmental Incident Category 3 ④ Service Damage Category 3 ④ Rail Sector Incident (Minor) 	Category 3A	Category 3P
<ul style="list-style-type: none"> ④ Medical treatment ④ Lost Time Injury (under 7 days) ④ Work related health issue requiring physiotherapy or counselling, but no time off work ④ Environmental Incident Category 2 ④ Service Damage Category 2 	Category 2A	Category 2P
<ul style="list-style-type: none"> ④ First Aid Treatment ④ No Treatment required ④ Damage / loss caused ④ Close Call ④ Near Miss (Non-rail) ④ Work related minor health issue ④ Environmental Incident Category 1 ④ Service Damage Category 1 	Category 1A	Category 1P
